

WE ARE A

**DAY
HOSPITAL**

WITH A STATE OF THE ART

**OPERATING
THEATRE**

WE CAN ACCOMMODATE MANY

**SURGICAL
OR DIAGNOSTIC
PROCEDURES**

LIFE | VIVA IS ALL ABOUT INSPIRING A WELL-BEING AND COMFORT EXPERIENCE TO PATIENTS WHO COME TO US FOR TREATMENT AND SURGERY, BY PROVIDING COMPREHENSIVE, HIGH QUALITY INTERNATIONAL STANDARDS DAYCARE AND SURGERY FACILITIES WITH A FOCUS ON ACCURACY AND EXCELLENT PATIENT SERVICE TO REDUCE RECOVERY TIME.

LIFE | VIVA, AMBULATORY CLINIC, IS PART OF THE HEALTHCARE & WELLNESS CLUSTER OF LIFE TOGETHER, MEMBER OF IBL GROUP.

Ambulatory surgery clinic refers to same-day surgical interventions. The patients can leave the clinic the same day as the procedure. Ambulatory surgeries are commonly called : minimally invasive surgery, outpatient surgery or same-day surgery.

Services ideal for day hospitals include plastic & cosmetic surgery, gynaecology, orthopaedic, urological, gastroenterology, pneumology, ear, nose & throat (ENT), vascular surgery, maxillofacial surgery, and a number of general procedures.

Day Surgery Facilities throughout the world have changed the surgical experience for millions of doctors and patients by providing them with a more convenient alternative to hospital-based surgery, achieving the highest possible quality standards and positive patient experiences on a cost-effective basis. Surgery in the world is transforming, with as many as 70% of surgeries currently performed in an outpatient setting.

3 patient clinical pathways:
fast track, usual and complex ambulatory

5 private comfortable rooms

A pre-surgery medical lounge in the operating theatre complex

2 operating theatre rooms:

- > a large room equipped with latest technology
- > a minor room dedicated to minor cases and endoscopy procedures

a fully equipped recovery room:
better comfort and recovery of the patient

BENEFITS

- > The patient receives **more personalised care and a treatment** that is better suited for his or her needs in a warm and welcoming clinic.
- > The patient returns home the day of the surgery and **recovers in a familiar environment.**
- > The patient **benefits from less post-operative pain** and decreased risk of thromboembolism thanks to early mobilisation.
- > Day Care is **less invasive than in patient surgery.**
- > It is beneficial for elderly patients who are able to go back to their safe place at home faster for **a less stressful experience.**
- > It is more **cost effective** compared with in patient surgery.

OUR PATIENT CENTRIC PROMISE

PEOPLE CARING FOR PEOPLE

We care for the patient as if they were our own family.

MAKING A DIFFERENCE TOGETHER

We treat our fellow caregivers with respect and integrity.

KINDNESS

We intentionally create an environment of compassionate belonging where all are valued and we create joy whenever possible.

EXPERTISE YOU CAN RELY ON

We ensure high standards and drive small and large changes to transform healthcare in everything we do.
